~Mummy and Baby Portraits~

Maternity Portraits

Capture this special time in your life with artistic portraits. Include your spouse, partner, other children and even grandparents-to-be in this intimate portrait session if you like. Maternity portraits are best in months 7 and 8 of your pregnancy. They can be as modest or revealing as you choose. We can do these special portraits at the location of your choice.

Maternity Series

Three maternity sessions to watch your belly grow!

Newborn Portraits

What is more amazing than a newborn? Maybe how fast they change and grow! Preserve this special moment in time –the family bonding, the adorable expressions, the precious little parts!

The first week or two with a new little one in the house can go by in a blur. I know that getting out of the house with a new baby and tired parents is not easy! I believe that the quality of your portrait is directly proportional to your ability to relax and enjoy the experience. This is why I come to you. Babies don't care that you have a portrait scheduled for between 1:30 pm and 2:00 pm at a studio, especially if they are tired, hungry, uncomfortable, cold, scared, hate their car seat...you get the picture! So, I come to your home, with a flexible schedule. There is time to calm baby down, time to feed, and change and change again. No one is waiting in line for you to be done. We'll just relax and wait for that perfect moment! Include parents, grandparents, Godparents, siblings, etc. Simplicity is great – a cloth nappy or no clothes at all. And, don't stress about cleaning the house – I'll find a good spot!

I can use these portraits to create beautiful custom birth announcements and unique 'brag books' for mum and dad, or grandparents!

Mummy and Baby Special

One Maternity Portrait Session and One Newborn Portrait Session

Baby's First Year Package

Your baby will change and grow so incredibly fast! Record baby's first year with four portrait sessions: newborn, 3-5 mos., 6-9 mos., 1 year. These portrait sessions are meant to capture your baby in his or her natural environment, at your home at first, and then maybe at a favourite park or garden! You may wish to include other family members, pets, favourite toys during some of the sessions. Again, no waiting in line at a big studio, no rush, no pressure! And, if we catch baby on a 'bad day' – no problem, we can reschedule!

This package includes a Storybook Album of images that you select from the entire year. In fact, for those of you too busy spending time with baby to make a baby book, this is a wonderful alternative. (Blank space can be left to write your favourite memories!) This package also includes 25 wallet sized or 4x6 prints of your choice from each session to give away to friends and family. You will treasure this collection of baby portraits forever – the results are priceless!

Again, I can use the newborn portraits to create birth announcements, and if we time it right, the one-year old portraits for 'first birthday party' invitations! Of course, any can be used for an amazing holiday card! And, additional copies of the Storybook Album are great for proud grandparents!
